### **REASONS FOR ALLOWANCE**

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Although, the Clark (US 6,064,694) reference teaches of testing a frequency converter device by mixing signals, and the Chong (US 6,417,672) reference teaches of a display interface for a tester, the prior art fails to teach the particulars of displaying labels for a plurality of mixing products that can be produced by mixing signals within a frequency converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **EXAMINER'S COMMENT**

3. The proposed reply filed on 02/10/2006 has been entered. The addition of the limitation "a plurality of mixing products that can be produced by mixing signals within a frequency converter" into independent claims 9 and 15, is in accordance with the subject matter of independent claim 1, and hence claims 9-20 are deemed allowable as well.
